Bachelor of Law in International Politics Sep 2018-Jun 2022  
GPA: 3.75/4.00  
Average Score: 91.01

## RESEARCH INTERESTS

- Populism(especially Techno-Populism)
- International Norms and the Evolution of the International Order
- Politics and International Relations of East Asia

## PROJECT EXPERIENCES

### Study on Diplomatic Lobbying of the U.S. Science-Industry Complex: A Two-Level Game Theory Framework

Researcher

Dec 2025-Present

- Developed a novel theoretical framework for Science and Technology Diplomacy by adapting Two-Level Game Theory, and applied it to analyze the U.S. CHIPS and Science Act as a pivotal geopolitical instrument reshaping the global semiconductor supply chain.
- Demonstrated how the U.S. redefines the state-capital relationship in an era of interdependence to achieve dual strategic objectives: supply chain reshoring and the containment of China.

### Dissertation:Study on Research on Korean Americans' lobbying Activities under Two-Level Games Theory

Researcher

Jan 2024-May 2024

- Applied two-level game theory to model Korean American lobbying effectiveness, analyzing determinants of outcomes in transnational and domestic policy arenas.
- Traced cross-level coordination mechanisms through qualitative historical analysis, demonstrating how strategic alignment enabled policy influence.
- Revealed the role of ethnic minority groups in U.S. foreign policy by linking transnational identities to national-global political dynamics.

### Study on the Evolution of UK Climate Policy from the Perspective of Normative Forces Theory

Researcher

May 2023-Aug 2023

- Consulted references related history of the evolution of climate policy in the EU and the UK under its influence, created a framework constructing through normative theory to analyze the causes of climate policy changes before and after Brexit.
- Did qualitative research to test and verify separately how normative forces changed UK climate policy.

### Academic Support Program:The Evolution and Prospects of the U.S.-ROK Alliance in the Context of the North Korean Nuclear Issue

(supported by University of International Relations)

Projcet Leader

Oct 2020-Dec 2020

- Constructed a comparative framework analyzing five U.S.-ROK administrations (1990s – 2020s) to identify a "strategic oscillation" pattern, revealing how alliance alignment precipitates North Korean escalation while discord facilitates Pyongyang's diplomatic leverage.
- Elucidated the bidirectional causality driving the "sanctions-nuclear tests" cycle, offering a rigorous historical lens to advance scholarship on the complex interplay between alliance cohesion and denuclearization pathways in Northeast Asia.

## PUBLICATIONS

## *TikTok Live-Streaming Ecological Governance Internship*

- Tracked 30+ language channels daily to systematically identify risks in LIVE content, platform sentiment, regulatory dynamics, and social events; ensured compliance and user safety in TikTok LIVE ecosystems through proactive governance.
- Authored 10+ strategic reports on high-profile incidents (e.g., U.S. anti-Trump "No Kings" Ptoest) to directly support ecosystem stability and growth through reputation management, regulatory compliance, and crisis prevention.
- Spearheaded daily sentiment monitoring, producing 95 daily reports and 18 weekly reports to integrate product feedback and enhance creator community safety in routine governance.

## **Insurance Risk Management Consulting Company (Beijing,China)**

*May 2022-Sep 2022*

### *Research Assistant*

- Developed a real-time news monitoring network, tracking 30+ global and domestic media platforms daily to systematically identify political hotspots; authored 20+ in-depth policy analyses with individual articles achieving over 1,000 reads.
- Specialized in EU institutional reforms, producing 10+ analytical reports (5 published in internal journal), directly supporting strategic research initiatives.

## **School of International Studies Peking University and Tencent's Joint Project on Belt and Road(Beijing,China)**

*May 2021-Jan 2022*

### *Research Assistant*

- Collaborated in multilingual translation of core lab meeting materials (English and Spanish), ensuring technical accuracy and contextual adaptation.
- Established a real-time foreign media monitoring system, systematically tracking 15 international outlets (BBC, CNN, etc.) to synthesize 20+ daily industry reports into concise policy briefs.
- Translated and edited 40+ foreign publications (20,000+ words), delivering specialized content that provided critical insights for two lab research projects, directly supporting their timely completion.

---

## **SOCIAL ACTIVITIES**

### **Teaching Assistant of the 2021 Summer Elementary School course on Globalization and the Arctic in University of International Relations**

*Aug 2021-Sep 2021*

- Worked as a teaching assistant to assist professors in organizing classes and answering questions related to the course.
- Organized a series of class presentations on globalization and the Arctic.

### **Volunteer for No. 12 Open House Project in University of International Relations**

*Sep 2018- May 2019*

- Managed the "12 Open House" project, a charity initiative funded by the Alumni Fund, dedicated to establishing a diverse and flexible activity hub for student organizations.
- Orchestrated over 10 department-level events and team-building sessions, covering academic seminars, cross-cultural exchanges, and mental health workshops. Achieved an average attendance of 50+ per session, with total participation exceeding 500 students and faculty.
- Innovated the project's operational model by analyzing student needs; assisted in the design and promotion of creative merchandise to enhance brand visibility.

---
